SUMMARY

Motivated software developer with prior experience in software development and project coordination, expert in Java and Python. My key achievements include being a finalist in the Dr. Pradeep P. Thevannoor Hackathon for developing an innovative Stray Dogs Attack Prevention System and successfully coordinating a farewell event that enhanced team collaboration. Seeking an executive position at NDSC MEC, where I bring my software development and leadership skills to support your mission of nurturing future leaders.

EXPERIENCE

Software Developer - Java Spring Boot 06/2024 - Present
Linsys Innovations PVT LTD

- Demonstrated exceptional technical skills through successful completion of multiple software development projects.
- Exhibited strong teamwork and collaboration abilities by working effectively with peers to achieve project goals.
- Showcased leadership potential by taking initiative and contributing valuable insights to project discussions.

Farewell 24' Coordinator 02/2024
St.Mary's Public School

- Successfully coordinated a memorable farewell event
- Designed engaging games and activities
- Created a professional presentation.
- Collaborated effectively with peers.
- Contributed to a positive farewell experience.

EDUCATION

Bachelor of Technology - BTech, Computer Science 09/2024 - Present
Model Engineering College

Primary and Secondary Education 06/2010 - 03/2024
St. Mary's Public School Thamarachal

SKILLS

Java, Python, JavaScript, HTML/CSS, React, Communication, Collaboration, Critical Thinking, Spring Boot

PROJECTS

Stray Dogs Attack Prevention | Java, MySQL, HTML/CSS, JavaScript, JSP 2022
(Finalists - Dr. Pradeep P. Thevannoor Hackathon 2022)

- Developed a functional demo with a user-friendly interface for reporting stray dog attacks
- Implemented an emergency SOS feature with real-time location tracking
- Integrated a MySQL database to store user reports and create heatmaps of high-risk areas.

Automobile Service System | Python, HTML/CSS 2023

- Designed and implemented a stock management system for service inventories and customer purchases
- Developed an online platform allowing users to schedule services and purchase necessary automotive parts.

KEY ACHIEVEMENTS

Hackathon Finalist, Dr. Pradeep P. Thevannoor 2022
Developed the Stray Dogs Attack Prevention System during a 48-hour hackathon, earning finalist recognition.
